To Whom It May Concern:

We have been quite pleased with the safes and service that Digital Safes has provided our customers over the past several years.

Digital Safes are easy to access, have excellent storage capacity and are easily integrated into closet, bedroom or office space.

I personally have safes in both my home and office and am pleased to have secure spaces to store my jewelry, cash, passports and other paperwork that need to be kept secure. I love the opportunity to leave good jewelry at my office so I don't need to worry about transporting it back and forth everyday. And, having cash on hand at the office often helps handle small emergencies.

Digital Safes has provided me personally and provided hundreds of our customers the security and ease we need in our busy life to secure our important personal items and papers and last minute cash.

I highly recommend the product and service Digital Safes provides.
